

Ash Class Homework Menu

This term, we continue to set project homework alongside the Maths or English set each week. This menu details a range of fun activities including Oracy activities that can be completed at home to extend your child's learning. Please help your child to choose and complete a selection of these activities. To fit in with your family life, they can be completed after school, at weekends or as a half-term project. If you would like further suggestions, please feel free to select from the homework menus of other classes which are all available on the school website. Children are asked to share at least one of the activities with us in school. **The deadline for this homework is Wednesday 26th February** and we ask that the homework is not brought into class until after half-term.

English

Can you find a stick and make up a story about it? You can draw, write or retell it verbally.

Practice the Phonics sounds that are on the Learning Link each week and learn the tricky words when they come home.

Draw or write a postcard from a hot or cold place. What would you have been doing there?

Hot and Cold Places

Science.

Can you create a house for a hot or cold place? Think about which materials would be best and why.

Go for a nature walk around where you live or somewhere further away. Can you spot some signs of the seasons changing or anything that tells us what season it is?

Art & DT

Can you draw or make a winter wonderland picture? What can you create that shows us it is winter?

Do an observational drawing of a tree in winter. What has changed about it?

Think about the transport we learnt about last term. Can you design an improved version of something we talked about?

History & Geography

Find out all about a hot or cold place. What facts have you learnt about it?

Where in the world would you like to go? Is it a hot or cold place? Tell us why you would like to go there.

Think about the different things you would need to go to a hot or cold place. Can you make a list for each?

Mathematics

Weigh out some ingredients to make some food – how do you know how much to use?

Go on a shape hunt around your house or your local area. Which shapes can you find? Are they 2D or 3D?

Y1: Count in 10s to 100 and 2s to 20 forwards and backwards. Recall number bonds to 10 and then 20.

EYFS: Spot numbers to 10 while you are out and about. Are they odd or even numbers?

Make groups of objects up to 10 and say how many of each there are without counting.

RE

Are there any places that are special for you and your family? Draw or print a picture of it and tell us all about it.

Y1 – Think about new babies. What do they need that is different to your needs?
